Joe:

Attached is a very slight amendment to the original plan, which I understand was discussed and agreed to by both DEP and EPA.

Thanks,

Subject: RE: Freedom Industries - Draft Water Quality Sampling and Interim Remedial Measures Workplan

Don,
Based on our discussions at the Freedom site on January 21 as well as our phone call and review of this document this morning, WVDEP approves the implementation of this sampling and intermediate remedial measures plan.

I must stress the importance of making accurate determinations regarding the absence of contaminants in any run-on water flows before such flows are considered for diversion around or away from the site. Additionally, it is imperative that adequate controls be maintained regarding any potentially contaminated surface water that will be generated during the expected snow melt and precipitation that is forecast to occur.

Cindy Musser informs me that during her walkthrough of the facility this morning with Mike Dorsey and the CEC folks, imminent actions regarding the extension of the interceptor trench, installation of an underdrain therein, and the installation of 2 recovery wells inside the secondary containment area in the vicinity of tank 393 have been verbally agreed to, and the initiation of sampling activities has been deferred until Wednesday January 29, due to the weather. Please confirm that this is your understanding also.

The WVDEP inspectors on-site, will be prepared to split samples with the CEC personnel as those activities commence.

Thank you.

Joe Hickman
Asst. Chief Inspector
WVDEP Environmental Enforcement

Joe, Scott and Mike:

Attached for discussion during this morning's 10:30 a.m. call is the Draft Water Quality Sampling and Interim Remedial Measures Workplan.

Mike – Anne Blankenship will bring 15 copies of the draft workplan to the Freedom office for the call. Please forward it via email to any agency personnel that are participating via phone.

Thanks,

Don
